Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner and Applicants' representative discussed proposed amendments to the claims. However, it was determined that the amendments did not appear to have enough details to overcome the prior rejection. Applicants' representative then summarized the differences between Vegesna and the instant application, most notably the asynchronous nature of the instant application vs. the synchronous nature of Vegesna. The Examiner stated that incorporating the details of the asynchronous nature, such as the handshaking protocol, would most likely overcome Vegesna. However, the Examiner also stated that further search and consideration was needed before a definite determination could be made with regards to overcoming Vegesna and allowability.
